

EFM Copper

Work for the week

EFM May, 2002

**Hugh Barrass (Cisco Systems),
Chair. IEEE 802.3ah copper sub task force**

Quick summary

- **The copper track has chosen baselines**
Still needs adoption by TF & WG
- **Better coordination**
Half the number of slides from March
- **No first draft yet**
Late & slipping
- **Goals for the week**
Baseline
Enable start of draft
Settle some more details

The plan

- **Baseline, baseline, baseline**
Monday afternoon – persuade TF main track to adopt baseline
- **OAM synchronization**
Tuesday morning – joint session with OAM
- **Details**
HDLC topics (Monday pm)
Loop aggregation, UPBO, noise, dual latency, MIB (Tuesday)
Criteria, motions (Wednesday am)
- **Liaison response**
Keeping in touch with old friends...
