

# HSSG Presentation Mapping to 5 Criteria Responses (Updated – again)

John Jaeger, Infinera

28<sup>th</sup> May 2007

# Update

- Assumes the updated PAR A 5 Criteria Working Draft & the PAR A Objectives resulting from the April 2007 meeting
  - <http://www.ieee802.org/3/hssg/PAR-A/index.html>
- Updated the previously reviewed compilation – see Jaeger\_02\_0407.xls
  - Added in the presentations which the group heard in Ottawa
  - Took a pass back through the Sept. '06 – March '07 presentations to include those related to the adopted 100G 40km PMD and 100G copper PHY objectives
  - 144 presentations included in the updated mapping
- No updates or changes suggested to the Criteria responses based upon this update

# Summary

- Outside of the 2 new objectives adopted in April, a sharp fall-off in 100G-oriented presentations
  - Few to no new issues to be explored; requested to be addressed by the group
- As evidenced by the various SG polls & motions
  - have addressed the major issues raised with respect to Broad Market Potential, Technical Feasibility and Economic Feasibility
    - See `dove_01_0507` for supporting material
