Copper track report

- 36 participants attended the copper track
- Heard 7 presentations
 - 40 GbE Over 4-lane 802.3ap Backplane
 - 10GBASE-KR for 40G Backplane
 - Considerations for Cu cable assembly interconnect specs
 - 40/100G copper feasibility
 - Higher speed copper operation
 - Considerations for active cables for Higher Speed Ethernet
 - Towards 100G over 100 Meters of CAT-7

Summary

- Discussed potential solutions for backplane, and copper cable assemblies
