Welcome to the HSSG Reach Ad Hoc

Tele and Data Conference

October 5th 2006

Join the audio bridge now

Ground Rules

- If you are in a noisy environment mute your line
  - Mute *6
  - Unmute #6
- Common sense courtesy prevails
- IEEE 802 Ground Rules
  - No product pitches
  - No restrictive notices
  - No absolute costs

Agenda

- Reach Information provided
  - Henk Steenman (in absentia)
  - Mike Hughes
  - Paul Kolesar (presented in Knoxville)
  - Alan Flatman (in absentia)
- Reach Questions of Interest
- Timeline for future Calls

Reach Questions

- None posted
- Discussion (see minutes for more details)
- Mark N – end user desire for commonality?
- Alessandro – polled top 25 cat6500 customers, by unit volume (early 2005) Data Center + Campus
  - 45% LX4 (commonality covers campus and DC)
  - 35% SR
  - 20% LR
- Peter P: robustness is important in HPCC, 100 to 150m (mostly 100), no need for reuse, "new build"
- Alessandro, data centers have high B/W needs outside as well as inside the "building", 10km covers 95% of requirements
- Mark N: need to consider early adopters

Time Zones

- GMT -8 San Francisco, Los Angeles
- GMT-5 Boston, New York
- GMT London
- GMT+1 Paris, Berlin
- GMT +2 Jerusalem
