

**Interpretation Number:** 1-03/11  
**Topic:** 1000-BaseX auto-negotiation enable/disable  
**Relevant Clause:** Clause 37

---

**Interpretation Request**

**See next page**

---

Response to Interpretation Request

**This request is being returned to you because the question asked does not constitute a request for interpretation but instead a request for consultation. Generally, an interpretation request is submitted when the wording of a specific clause or portion of a standard is ambiguous or incomplete. The request should state the two or more possible interpretations or the lack of completeness of the text.**
