

IEEE 802.3 Maintenance plenary week  
meeting unconfirmed minutes  
July 12, 2000

David Law convened the meeting. Meeting attendance was, Terry Cobb, Bob Noseworthy, Geoff Thompson, Ben Schultz, Tom Mathey.

The process diagram was reviewed. Geoff commented that 'Consult Technical Expert' stage should be change to read 'Consult Technical Experts' as the use of multiple experts is required.

The group then went on to review each change request individually.

**Change Request 1000**

No Action

**Change Request 1001**

It was noted that the text 'shall' in the request should be corrected to read 'shall'.

The proposed new wording should match that of 802.1D. Once checked we should the go to ballot. Until then status should remain "I".

Editorial/Technical	Technical
Ballot Required	Yes
Ready for ballot	No
New status	Incomplete (I)

**Change Request 1002**

No action

**Change Request 1003**

No action. Still awaiting more rationale for this request from submitter.

**Action:** Tom Mathey to contact Rich Seifert to help him draft further text for the 'Rationale for revision' section of the change request.

**Change Request 1004**

No action. Still awaiting clarification if the note was ever there and if so what it said.

**Action:** Tom Mathey to contact Geoff Thompson to help him review earlier versions and drafts of the standard to clarify if the note was ever present and if so what it said.

### **Change Request 1005**

No action. Still awaiting submitter to contact technical experts.

**Action:** Tom Mathey to consult technical experts Alan Flatman and Pat Thaler. Why is the Clause 10 parallel text not the same.

### **Change Request 1006**

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1007**

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1008**

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1009**

It was noted that this change request related to 7.2.2.2.2 rather than 7.2.2.2 as stated in the change request at present. The request will be updated to reflect the correct subclause.

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1010**

No action. Still awaiting confirmation when the duplication of these clauses first occurred and to assurance that when the duplication occurred it did not also cause some other text to be removed

**Action:** Tom Mathey to contact Geoff Thompson to help him review earlier editions and drafts of the standard to clarify if the note was ever present and if so what it said.

### **Change Request 1011**

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1012**

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

### **Change Request 1013**

Technical Expert consulted - Geoff Thompson: See previous page for technical verification. The Peak Output Voltage does not exceed 3.65.

**Action:** David Law to contact IEEE Editor to ensure that this errata is included in the 2000 edition and is also place on the web site.

Editorial/Technical	Technical
Ballot Required	No
Ready for ballot	N/A
New status	Errata (E)

### **Change Request 1014**
