+==	802-3/802.3 REVISION REQUEST 1068
DATE:	20th Dec, 2000
NAME:	Geoff Thompson
COMPANY/AFFILIATION:	Nortel Networks
E-MAIL:	gthompso@nortelnetworks.com
REQUESTED REVISION:	
STANDARD:	IEEE std 802.3-1998
CLAUSE NUMBER:	13.1
CLAUSE TITLE:	Overview
PROPOSED REVISION TE	XT:
See IEEE P802.3aj dr	aft.
RATIONALE FOR REVISI	on:
a part or the Standa	rd since October of 1993. It is unfortunate however
that there isn't a fi the example that ever revision of Clause 13	gure in that clause of the standard that illustrates ryone would want to see. This was due to the current being developed as part of the 10BASE-F project and illustrated are concentrated on fibre. This change this situation.
that there isn't a fithe example that ever revision of Clause 13 hence the topologies would finally remedy	gure in that clause of the standard that illustrates ryone would want to see. This was due to the current being developed as part of the 10BASE-F project and illustrated are concentrated on fibre. This change this situation.
that there isn't a fithe example that ever revision of Clause 13 hence the topologies would finally remedy IMPACT ON EXISTING None.	gure in that clause of the standard that illustrates ryone would want to see. This was due to the current being developed as part of the 10BASE-F project and illustrated are concentrated on fibre. This change this situation.
that there isn't a fithe example that ever revision of Clause 13 hence the topologies would finally remedy IMPACT ON EXISTING N None.	gure in that clause of the standard that illustrates ryone would want to see.
