FAX: +44 131 659 8001  
E-MAIL: David\_Law@3Com.com

REQUESTED REVISION:  
STANDARD: IEEE Standard 802.3, 2000 Edition  
CLAUSE NUMBER: Figure 15-1  
CLAUSE TITLE: Fiber optic medium and common elements of medium  
attachment units and star, type 10BASE-F

PROPOSED REVISION TEXT:

Correct the figure to match that published in the 1998 edition. The following differences are noted however this list may not be exhaustive:

1. The text in the sublayers of the LAN CSMA/CD 'stack' needs to be center aligned.
2. The text 'Media Access Control' needs to be returned to be in the MAC sublayer box.
3. The text 'repeater' needs to be returned to the left braces so that the text reads 'DTE or Repeater'.
4. The text 'PAS-' in the lower right box should be returned to read 'PASSIVE STAR'.

In addition the long term error in the title of the figure should be corrected:

5. The title should be changed from '10BASE-T relationship ...' to read '10BASE-F relationship ...'.

RATIONALE FOR REVISION:

The figure does not match the figure that was published in the 1998 edition and in addition this Clause is 10BASE-F, not 10BASE-T.

IMPACT ON EXISTING NETWORKS:

None.
