                                                                            9
REQUESTED REVISION:                                                        10
    STANDARD:          IEEE Std 802.3bj-2014                               11
    CLAUSE NUMBER:     82                                                  12
    CLAUSE TITLE:      Figure 82-17 LPI Receive state diagram             13
                                                                           14
PROPOSED REVISION TEXT:                                                    15
                                                                           16
Delete vestigial entry B into state RX_LINK_FAIL.                         17
                                                                           18
RATIONALE FOR REVISION:                                                    19
                                                                           20
The B entry condition should have been removed when the RX_FW state was   21
removed from this diagram but it was left in by accident.                 22
                                                                           23
IMPACT ON EXISTING NETWORKS:                                              24
                                                                           25
None.                                                                     26
                                                                           27
