 - ANSI X3.263: 1995 (TP-PMD) does not include an explicit B. E. R.
 - TP-PMD does specify magnetics characteristics (some of which are not MDI testable.)
 - Higher current will increase magnetics costs
 - Some magnetics requirements may be dated and costly.

Special Note 2

- Ad-hocs will meet during the week during the regular meeting times and / or after hours.
