OIF OPTICAL INTERNETWORKING FORUM

May 17, 2010

To: Mr. David Law (Chair, IEEE 802.3 Working Group)
From: Mr. Lyndon Ong (OIF Technical Committee Chair)
Subject: OIF CEI-28G-VSR Project

Dear David,

Thank you for the liaison from the IEEE 802.3 Working Group, dated March 18, 2010, providing feedback on oif2010.092.03. We look forward to collaborating with the newly formed IEEE ad hoc group and look forward to your feedback subsequent to the IEEE 802 July Plenary.

Based on the success of the Feb 1, 2010 CEI workshop and in order to encourage additional collaboration, the OIF is sponsoring a subsequent CEI workshop. We would like to invite any interested parties to attend the OIF CEI workshop scheduled for July 19, 2010 in Baltimore, MD. Information on registration, location and agenda will be posted by late May on the OIF website. (www.oiforum.com)

The OIF would like to thank the IEEE 802.3 Working Group and its participants for helping to identify an industry need that the CEI-25G family may address. Moving forward as the project progresses, we will forward relevant documents for the IEEE 802.3 Working Group's consideration and review.

Best regards,

Lyndon Ong
OIF Technical Committee Chair
