INCITS T11 Report to 802.3
Terry Cobb

IEEE 802.3 Plenary

San Diego, CA.

July 2010

T11 has meet twice since the last Plenary of 802.3:

- Mar. 29 - Apr. 1, 2010 in Pasadena, CA.
- Jun. 7 - 10, 2010 in Minneapolis, MN.

FC-PI

- **FC-PI-5 (16 GFC) second T11 letter ballot.**

- **FC-MSQS was approved for a T11 letter ballot. MSQS will contain the test procedures required for FC-PI-5.**

- **FC-PI-6 (32 GFC) project proposal was approved by T11.**

FC-PI-6

- **New presentations for FC-PI-6.**
- **Two presentations showed that 28 Gb/s is feasible.**
- **A first attempt was made at a link budget.**
  - **Single lane SFP connector.**
  - **The module will be retimed and most likely require equalization.**
- **Responded to OIF with recommendations.**
  - **Fibre Channel uses a single lane which is different from other cases.**

Other Items of Interest

- **First meeting of Energy Efficient Fibre Channel**
  - **Adam Healey gave an overview of Energy Efficient Ethernet.**

- **An INCITS Award for Technical Excellence was granted to David Cunningham and Adam Healey.**

Upcoming Meetings

- **Aug 2-6, 2010 in Chicago, IL.**
  - **This will be the 100th T11 meeting.**

- **Oct 18-22, 2010 in Bellevue, WA.**
  - **Co-located with a JTC 1/SC 25 meeting.**
