Dear Mr. Day,

Thank you for your information regarding the ITU-T Study Group 5 (SG5) formation of the Home Networks Special Group. At this time the IEEE 802.3 Ethernet Working Group does not have an individual to appoint as a liaison between our groups.

We would like to, however, share information between the two groups as this topic, and the possible issuance of new ITU-T K-series Recommendations, is of great interest to the IEEE 802.3 Ethernet Working Group.

The IEEE 802.3 Ethernet Working Group would like to request that any draft material of ITU-T K-series Recommendations concerning Ethernet port protection be made available for comment by the group.

[Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
