

802.1 liaison report

- Congestion management Study Group formed, Pat Thaler chair
 - Congestion Notification PAR & 5 Criteria approved for precirculation for July
- 802.1H MAC Bridging of Ethernet V2.0 in Local Area Networks is due for refresh
 - Reaffirm not appropriate
 - Written when type fields were outside 802.3
 - Language is ISO centered
 - Considering whether to revise or withdraw

802.1 liaison report

- Link Aggregation
 - Would like to move to 802.1 due to layering issues
 - Just starting discussion of this – no decisions at this point.
