Consensus on Revision Plan

- Maint Chair to work with IEEE Staff and WG Chair for a request for a consolidated edition
  - Include Kim and Michelle on all correspondence
  - Supply staff editor with source files of projects in process
  - Communicate TF preference for additional section starting with C78
- List of amendments to be included
  - Published: av, bc, at, Cor 1, ba, az
  - In process: bd, bg, bf
  - All errata as of 3rd printing + av erratum (maint request 1227)
- Task Force Review: Plan to do a TF informal review ("snapshot") for May interim. Scope limited to below and depends on step 1 above:
  - Checking the consolidated edition for conflicts
  - Folding in the relevant maintenance requests
  - Coordinating changes with .3.1 / OAM and delete GDMO
  - Not a "traditional" full TF review with comment tool etc.
- Plan to show the WG Preview draft and request WG approval for WG Ballot during the July plenary
- Submit plan to RevCom in 2011 assuming approval date will be in 2012 or afterwards (> 3 years)
