IEEE 802.3
Joint Workshop with ITU-T
12th March 2012, Big Island, HI

Wael William Diab

Vice-Chair, IEEE 802.3 Working Group

wdiab@broadcom.com

Background and Overview

- September 2012 interim is hosted at the ITU-T facilities

- Proposal for a joint workshop between ITU-T and IEEE 802.3
  - Target date is *Saturday* September 22nd
  - At the ITU-T facilities
  - Will have 3 sessions
    - Access, Core Networking, Review/Brainstorming
  - Detailed logistics covered by 802.3 Exec Sec

Status To-Date

- Email introduction with ITU-T leadership
- Introduction of topic to IEEE-SA staff
- Initial call with ITU-T leadership
  - Agreed on 2 topic areas
    - Topics limited to areas of mutual interest
  - Topic with more contributions to be done during morning session. Other to be done in the afternoon session with brainstorming / review
  - Next call to be scheduled after plenary
    - In part to allow for new SGs to participate if approved

Next Steps

- Identify topics of interest within 802.3 to propose to ITU-T leadership
  - Volunteers and ideas are encouraged…
    - Yes, that means you!
  - If you have a proposal, please contact me
    - Please provide a title and *brief* abstract
    - Please indicate if you would like to or would be willing to co-present on the topic
      - Co-presenter can be a fellow 802.3 or ITU-T participant
    - Request that you also include the TF/SG Chair
      - This will make it easier to group proposals if needed
    - Deadline for proposals is April 16th
  - List of selected proposals will be aggregated, reviewed by WGAC and shared with WG by email
- Propose call with ITU-T leadership to review proposals from each group
  - Target a call prior to next 802.3 interim
- Report back to 802.3 Working Group in July and email if needed
