Liaison reply to TR-42 liaisons to IEEE 802.3 Working Group:

Subject: TR42-2012-10-194A
TR42d7-2013-02-004
TR42d7-2013-02-052A

Approval: Agreed to at IEEE 802.3 Plenary meeting, Orlando, FL, USA, 21st March 2013

¹ This document solely represents the views of the IEEE 802.3 Working Group, and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

Dear Mr. Jensen,

The IEEE 802.3 Working Group thanks TR42 for the three liaison letters on the topic of the Next Generation BASE-T Study Group.

TR42-2012-10-194A and TR42d7-2013-02-052A. The Next-Generation Study Group has adopted a set of objectives, located at <http://www.ieee802.org/3/NGBASET/index.html>. The drafts were useful in developing these objectives.

TR42d7-2013-02-004. This liaison letter included the results from a cabling length survey offered to the Study Group. The results of this survey were presented to the Study Group at our January 2013 interim meeting in Phoenix, and were appreciated and were used in the development of our objectives.

We look forward to continuing to work with you to make the Next Generation BASE-T Study Group and its potential follow-on Task Force a success.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
