Report from Portonovo

- 4 day meeting Sept 15-18 hosted by Aethra Bellisima!
- ~70 attendees
- Reviewed P802.3ah/D2.0
- Responded to 1268 comments
 - General: Modify document structure
 - P2MP: Use CSMA/CD MAC
 - Copper: Remove 8 kHz tone spacing, add PCS loss of sync signaling
 - OAM: Clarify use of OUI
 - Optics: confirm optical parameters
- 78 TR comments not resolved to satisfaction of balloter
- Issued recirculation ballot on D2.1

Document restructuring

- Avoid changing IEEE Std 802.3
- Clause 24, 36, 46: changes to allow transmission of OAMPDUs on "one way" links
 - Consolidate in Clause 66: <u>Extensions of the 10 Gigabit</u> <u>RS, 100BASE-X PCS, and 1000BASE-X PCS for OAM,</u> which incorporates 24, 36, 46 by reference, in the style of Clause 26
 - Renumber current 66/66A to 67/67A

Document restructuring

- Clause 4: changes to ifsStretch for FEC
 - Eliminate by using a different rate adaptation method that leaves Clause 4 alone
- Clause 35, 36: changes to support FEC and burst mode operation
 - already consolidated in Clause 65
 - change references from Clause 36 PCS to Clause 66 PCS

Document restructuring

- Areas where change to base standard is unavoidable:
 - Additions to Clause 1 definitions, abbreviations, references
 - Style manual constraint
 - Change to Clause 22 management registers
 - Allow access to Clause 45 registers
 - Not unique to EFM, "service to humanity"
 - Support for OAMPDU transmission on "one way" links
 - No other method for assigning these bits
 - Assign identifiers administered by 802.3
 - Annex 43B; slow protocols, Annex 31A; MAC Control opcodes
 - No other method for assignment
 - Changes related to management
 - Clause 30, Annex 30A, Annex 30B, Clause 45
 - 802.3 management is monolithic

Motion from Portonovo

Adopt as the response to comments 952, 837, 1167:

http://standards.ieee.org/cgi-bin/bsignup/0000650

- Invitation closes 24-November-2003
- You must either be a member of the IEEE-SA, or pay a balloting fee

Adopted timeline

Objectives for this meeting

- Prepare responses for all new comments
- Prepare D2.2 recirculation package
- Seek conditional approval for sponsor ballot

Reviewing draft D2.1

- Our editors have produced P802.3ah/D2.1, using D2.0 plus the comments that we resolved in Portonovo
- We must prepare a response to each of the 561 new comments received during the recirculation
- We must be very careful about making changes
 - Remember, the document stands approved in its current form
 - If it ain't broken, don't fix it
