> **802.1ak** (MRP) TG ballot. End date Sept 2007

> **802.1AP** (Q MIB) – just starting

> **802.1aq** (Shortest Path Bridging) – just starting

> **802.1AR** (Device identifiers) – just starting

> **Proposed PAR – P802.1AM** (Wireless management)

Residential Ethernet (ResE)

>Joint 802.1/802.3 ResE interim in September

>Proposed adoption of the ResE work by 802.1 at this meeting

>Consideration of initial PAR(s) for the ResE activity

• authorize the January interim meeting to submit the initial PAR(s) to the 802 Exec to meet the 30-day notification rule for Exec approval at the March meeting.

>Planning for preparation of initial drafts to further support detailed development of the work.

Congestion Management

> Backwards Congestion Notification (BCN) scheme presented again at September interim as appropriate work for 802.1

- This is complimentary to the rate limiting proposal of the 802.3ar draft

> 802.1 indication on how to launch a new project for congestion management

- Need a tutorial first at a plenary
- Then draft a PAR,…

Joint technical plenary ?

> No joint 802.1 and 802.3 sessions are scheduled
