#### **Opening Report**

IEEE 802.3 Working Group

# 2.5G and 5G Ethernet Backplane and Short Reach Copper Cable ,"CU4HDD", Study Group

Yong Kim, Broadcom Nov 9, 2015, 802.3 Plenary

#### **CU4HDD Study Group Information**

 Named our "band" – Copper for HDD, CU4HDD, Study Group in recognition of the target application below.

- From 2015 July Opening Report: "Target applications include
  - Enterprise and Cloud storage market using high capacity HDDs (and SSDs) is transitioning from dedicated drive interface to networked native Ethernet interface. The transition is motivated by "block" storage access method to "object" storage. This represents broad market applicability.
  - Long term bandwidth needs of HDDs, which serve the low-cost and deep storage, are 2.5Gb/s and 5Gb/s. "
