Title: LS/o/r on IEEE 802.3cb 2.5 Gb/s specification (reply to IEEE 802.3 Working Group - LS66/SG15-TD227/WP1)

Purpose:

LIAISON STATEMENT

For action to: -

For comment to: -

For information to: IEEE 802.3 WG

Approval: SG15 meeting (19 October 2018)

Deadline: -

Contact: Frank Van der Putten
Rapporteur Q4/SG15
Nokia, Finland

Tel: +32 477473400

Email: frank.van_der_putten@nokia.com

Thank you very much for your recent liaison providing a copy of the project draft (IEEE P802.3cb Draft 3.4).

ITU-T Q4/15 has concluded the work on a revision of ITU-T Recommendation G.999.1 (Interface between the link layer and the physical layer for digital subscriber line (DSL) transceivers). It adds support for 2.5 Gbit/s and 10 Gbit/s LINK/PHY physical interfaces based on 2.5GBASE-KX and 10GBASE-KR.

The draft Recommendation is attached for your information. We look forward to further collaboration in this area with the experts from IEEE 802.3 WG.

Our next meetings are scheduled 21-25 January 2019 and 1-5 April 2019.

Attachment: consented Revision of G.999.1
