Subject: Liaison reply to MEF regarding update on MEF 63 and Operator L1 Service Attributes

Approval: Agreed to at IEEE 802.3 plenary meeting, Bangkok, Thailand, 15th November 2018

Dear Mr. Chen and members of the MEF,

Thank you for informing us that the Subscriber Layer 1 Service Attributes Technical Specification has been published as MEF 63. In a prior communication, we had informed you that IEEE Std 802.3 was undergoing revision. We would now like to inform you that the revision was completed with the publication of IEEE Std 802.3-2018 on 31st August 2018. IEEE Std 802.3-2018 combines (and supersedes) IEEE Std 802.3-2015, eleven approved amendments, and one approved corrigendum. It also includes a number of maintenance changes.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
