Ethernet Support for the IEEE P802.1AS Time Synchronization Protocol

Draft Objectives

July 14, 2009

Contribution from 802.1 AVB TG

Presented by Geoff Garner

Objective

- Existing PHYs can comply to this standard. For example, a 25 MHz MII meets the requirements of the accuracy needed for IEEE 802.1AS

- Other applications that require better accuracy should be addressed in a separate PAR
