

IEEE802.5 Working Group, Interim Meeting Objectives

- 1. Hear Presentations on High Speed Token Ring**
- 2. Reach agreement on requirement to develop a High Speed Token Ring standard**
(Assume answer is Yes for remainder of objectives)
- 3. Reach general agreement on technical direction for IEEE 802.5 Native High Speed Token Ring solution**
- 4. Begin development of IEEE 802.5 responses to the 5 Criteria (Completion of this task to be done via E-Mail)**
- 5. Open a database of High Speed Token Ring issues requiring Working Group resolution**
- 6. Decide on roadmap for technical work**

Operating Procedures for Meeting:

- **All participants must pay meeting fee (about \$80.00 per attendee) in cash, this morning.**
- **Motions decided by Straw Poll**
- **All participants are allowed to vote on all straw polls**
75% Yes (of Yes+No votes) constitutes consensus
> 50% constitutes majority, but not consensus
- **Official Votes will be the basis for 802.5 Standards development to be done by electronic ballot or at official 802.5 meetings. Straw Polls are a useful gauge to help guide Working Group members, and often get confirmed by Official Votes as Working Group positions.**
