802 EC Rules

James Gilb (Tensorcom)

Participants, Patents, and Duty to Inform

All participants in this meeting have certain obligations under the IEEE-SA Patent Policy.

- Participants [Note: Quoted text excerpted from IEEE-SA Standards Board Bylaws subclause 6.2]:
 - "Shall inform the IEEE (or cause the IEEE to be informed)" of the identity of each "holder of any potential Essential Patent Claims of which they are personally aware" if the claims are owned or controlled by the participant or the entity the participant is from, employed by, or otherwise represents
 - "Personal awareness" means that the participant "is personally aware that the holder may have a
 potential Essential Patent Claim," even if the participant is not personally aware of the specific
 patents or patent claims
 - "Should inform the IEEE (or cause the IEEE to be informed)" of the identity of "any other holders of such potential Essential Patent Claims" (that is, third parties that are not affiliated with the participant, with the participant's employer, or with anyone else that the participant is from or otherwise represents)
- The above does not apply if the patent claim is already the subject of an Accepted Letter of Assurance that applies to the proposed standard(s) under consideration by this group
- Early identification of holders of potential Essential Patent Claims is strongly encouraged
- No duty to perform a patent search

Patent Related Links

All participants should be familiar with their obligations under the IEEE-SA Policies & Procedures for standards development.

Patent Policy is stated in these sources:

IEEE-SA Standards Boards Bylaws http://standards.ieee.org/develop/policies/bylaws/sect6-7.html#6 IEEE-SA Standards Board Operations Manual

http://standards.ieee.org/develop/policies/opman/sect6.html#6.3

Material about the patent policy is available at

If you have questions, contact the IEEE-SA Standards Board Patent Committee Administrator at patcom@ieee.org or visit http://standards.ieee.org/about/sasb/patcom/index.html

This slide set is available at https://development.standards.ieee.org/myproject/Public/mytools/mob/slideset.ppt

Slide #2

Call for Potentially Essential Patents

- If anyone in this meeting is personally aware of the holder of any patent claims that are potentially essential to implementation of the proposed standard(s) under consideration by this group and that are not already the subject of an Accepted Letter of Assurance:
 - Either speak up now or
 - Provide the chair of this group with the identity of the holder(s) of any and all such claims as soon as possible or
 - Cause an LOA to be submitted

Slide #3

Other Guidelines for IEEE WG Meetings

- All IEEE-SA standards meetings shall be conducted in compliance with all applicable laws, including antitrust and competition laws.
 - Don't discuss the interpretation, validity, or essentiality of patents/patent claims.
 - Don't discuss specific license rates, terms, or conditions.
 - Relative costs, including licensing costs of essential patent claims, of different technical approaches may be discussed in standards development meetings.
 - Technical considerations remain primary focus
 - Don't discuss or engage in the fixing of product prices, allocation of customers, or division of sales markets.
 - Don't discuss the status or substance of ongoing or threatened litigation.
 - Don't be silent if inappropriate topics are discussed ... do formally object.

See IEEE-SA Standards Board Operations Manual, clause 5.3.10 and "Promoting Competition and Innovation: What You Need to Know about the IEEE Standards Association's Antitrust and Competition Policy" for more details.

 - We have never referred to these and we do not know if they are applicable.

Section 2.0 Responsibilities of the Sponsor

The Sponsor shall be responsible for at least the following:

- a) Developing proposed IEEE standards and ensuring that they are within the scope of the Sponsor.
- b) Initiating and overseeing ballots of proposed IEEE standards within its scope, including:
 - 1) Approving Project Authorization Requests (PARs) from a subgroup or the Sponsor

2) Submitting a proposed PAR to the IEEE-SA Standards Board for consideration. Following approval of the PAR, the Sponsor shall submit necessary requests for extension, modification, or withdrawal of the PAR as required by the IEEE-SA Operations Manual

3) Submitting draft standards from a subgroup or the Sponsor to the IEEE-SA for Sponsor ballot.

(Replaces: i) valuating project proposals and, if a proposed project falls within the Sponsor's scope, deciding whether or not to generate a PAR)

c) Maintaining the standards developed by the Sponsor in accordance with the IEEE-SA Standards Board Operations Manual

- d) Acting on other matters requiring Sponsor effort as provided in these procedures
- e) Cooperating with other appropriate standards development organizations
- f) Protecting against actions taken in the name of the Sponsor without proper Sponsor authorization
- g) Limiting distribution of the membership roster to appropriate parties
- h) Communicating with the IEEE-SA Standards Board on specific Sponsor activities as needed
- i) Handling appeals as described in Clause 9

3.0, 3.1, 3.2, and 3.3

- In 3.0:
 - Baseline added "A person may simultaneously hold the positions of Treasurer and another office, other than Sponsor Chair."
 - Baseline changed "Officers should read the training material ..." to be "Officers shall read the training material ..."
- In 3.1:
 - Baseline did not have template for 802 EC elections, replaced with 802's previous text.
 - Change OM name to "IEEE 802 LMSC Operations Manual" (and in 4.1)
- In 3.2:
 - Add cross reference to3.0 as well as 3.1.
- In 3.3:
 - Change to "two-thirds approval vote of the voting members of the Sponsor."

802 EC Rules

3.4.1, changes to match baseline

- · Removed appointing person for interpretations.
- · Changed to "Setting goals and deadlines and endeavoring to adhere to them."
- · Added

 I) Complying with the Sponsor Chair's responsibility with respect to the IEEE-SA Intellectual Property Policies, including but not limited to the IEEE-SA Patent Policy (see IEEE-SA Standards Board Operations Manual 6.3.2, http://standards.ieee.org/board/pat/index.html) and IEEE-SA Copyright Policy (see IEEE-

SA Standards Board Bylaws 7, http://standards.ieee.org/guides/bylaws/sect6-7.html#7)

- m) Submitting approved Sponsor P&P to the IEEE-SA Standards Board Audit Committee (AudCom—see http://standards.ieee.org/board/aud/index.html)
- n) Ensuring that each Working group has a set of P&P approved by the Sponsor. The Sponsor Chair will provide the Working group P&Ps to AudCom upon request.
- o) Submitting appropriate Annual Financial Reports (IEEE SA Form L50-S) to the Business Manager, Business Administration, or assignee, for the operation of the Sponsor and all of its subgroups

3.4.3, 3.4.4 and 3.4.5

• 3.4.3

- Item a), baseline added "—notification of the potential for action shall be included on any distributed agendas for meetings"
- Retained our timing for agendas (14 vs. 15 days) and publishing minutes (30 vs. 60 days).
- 3.4.4, baseline
 - Removed "The Treasurer has the responsibility ... financial operation of the Sponsor."
 - Changed to: "Control all funds, including any into and out of ..."
- 3.4.5

 Moved from 3.43. in baseline to 3.4.5 "Scheduling meetings in coordination with the Sponsor Chair and distributing a meeting notice at least 30 calendar days before the meeting." and delete "Provide public notice of upcoming plenary session." as it is covered by the above.

802 EC Rules

 - "A Study Group is disbanded upon approval of the PAR by the IEEE-SA Standards Board."
- Changed from prior 802 P&P
 - Change to "The WGSG Chair is appointed by the WG Chair and approved by the WG."
 - Deleted "The decision of whether to utilize an existing WG, or to establish a new WG to carry out recommended work items shall be made by the EC with due consideration of advice from the Study Group." as this is already in 5.0 (was prior 5.1, merge in "with due consideration of advice from the Study Group"

802 EC Rules

6.0, 6.1

- in 6.0, Baseline added:
 - "Sponsor meetings may be conducted either exclusively in-person or in-person with one or more participants contributing via electronic means, or exclusively via electronic means. Sponsor meetings shall be held, as decided by the Sponsor Chair, or by petition of 5 or more voting members, to conduct business such as making assignments, receiving reports of work, progressing draft standards, resolving differences among subgroups, and considering views and objections from any source. A meeting notice shall be distributed to all members at least 30 days in advance of the meeting. A meeting agenda shall be distributed to all members at least 14 days in advance of the meeting. Meetings of subgroups may be held as decided upon by the members or Chair of the subgroup. Notification of the potential for action shall be included on any distributed agendas for meetings."
- In prior 6.0, moved in baseline to 6.4
 - "The Sponsor may charge a meeting fee to cover the expenses of the Sponsor. The fee shall not be used to restrict participation by any interested parties. The Sponsor Officers shall set the meeting fees in consultation with those planning a particular meeting."
- In 6.1 Quorum

New 6.5 Minutes

The minutes shall record the essentials, including the following:

a)Name of group

- b)Date and location of meeting
- c) Officer presiding, including the name of the secretary who wrote the minutes
- d)Attendance, including affiliation
- e)Call to order, Sponsor Chair's remarks
- f) Approval of minutes of previous meeting
- g)Approval of agenda
- h)Technical topics
 - 1)Brief summary of discussions and conclusions
 - 2)Motions, including the names of mover and seconder.
- a)Items reported out of executive session
- b)Next meeting--date and location

Copies of handouts and subcommittee reports may be included in the minutes or made available as separate items.

802 EC Rules

7.1.1, 7.1.2, voting

- 7.1.1
 - New item "Approval to jointly sponsor a project (PAR). See Clause 2.1.1"
 - New wording, was "Approval of draft standards for balloting" now (from baseline) "Authorization of a Sponsor ballot"
- 7.1.2 Suggest 3 items requiring 2/3 vote:
 - Approval of change of the Sponsor scope
 - Approval of termination of the Sponsor
 - Removal of an officer except the Sponsor Chair

New 7.2

- 7.2 may be modified, should we heavily modify this? I made some small changes.
- In baseline:
 - "Approval for moving a draft standard to Sponsor ballot, or approval of any substantive change in the scope of a standard proposed by a subgroup, shall be referred to the Sponsor for approval. The Sponsor may delegate approval authority and form a subgroup for this purpose. Approval to move a standard to Sponsor ballot from such a subgroup requires a majority vote. This vote shall be limited to procedural issues and PAR alignment only."

7.4, 8, 8.3.1, 8.3.3

- 7.4 may now be modified. Do we need to change anything? It is currently the same as in our prior P&P.
- 8 has been removed from the baseline, was "shall not be modified". Any reason to keep it?
- Prior 9.3, moved contents of second paragraph to 8.3.1 (new home of this)
- New 8.3.3 "Public statements to be issued by other entities"
 - "If the Sponsor wishes to go to another IEEE entity (as defined in Section 15 of the IEEE Policy and Procedures) to have that entity offer a public statement on a standards matter, they shall do so after agreement from the IEEE-SA Standards Board and after informing the IEEE-SA Board of Governors. Upon Sponsor approval, proposed public statements that need to be issued by other IEEE entities shall be forwarded to the IEEE-SA Standards Board Secretary for further action."

5.13	п	Review Proposed 5C Changes within WGs	Gilb	3	08:55 AM

Gilb presented EC-12-0056-02, which has been posted. He gave verbal reminder of proposed 5C documents to be reviewed with individual working groups. EC Doc 56 Rev 2 (Pdf) has been posted.

Comments received

- Seemed odd that co-existence only seemed to address wireless groups. Should be made for all WGs
- In distinct Identity it should be looked at on a global standards basis.

Gilb anticipating bringing motion of approval of 5C on Friday, but concern is how will feedback be brought forward. Please send comments with suggested text to EC Reflector.

Approval of 5C can only be done at F2F meetings.

Chair directed group to emulate process with PARs. Comments Tuesday 5pm / Feedback by Wed 5pm.

Discussion included:

- Different co-existence, OM change could be voted in March
- Feeling of group is to discuss co-existence this week and resolve in March.
- No formal action to be taken with this week.
- Appears that co-existence this is moving into regulations process.
- Please review 1.2, Compatibility and Coexistence (see document) with your group
- This particular section will come up for vote this week.

Proposal is to have a top-level clause for the 5C and to update to reflect the current state of our groups and technology.

11.2 IEEE 802 LMSC Approval

From 11.2 in the OM, change the second paragraph as shown:

Approval of the PAR by the EC is contingent on inclusion of accepted responses describing how the proposed PAR meets the five criteria and a work plan for the development of managed objectdefinitions, either as part of the PAR or as a part of an additional PAR. PARs which introduce no new functionality are exempt from the requirement to provide responses to the five Criteria. Examples of such PARs are: Protocol Implementation Conformance Statements (PICS), Managed Object Conformance Statements (MOCS), PARs to correct errors, and PARs to consolidate documents.

Replace 11.5 Criteria for Standards Development (Five Criteria) with the following as Clause 12 (changes from existing 11.5 are shown)

1. Criteria for Standards Development (Five Criteria)

1.1 Broad Market Potential

A standards project authorized by IEEE 802 LMSC shall have a broad market potential. Specifically, it shall have the potential for:

- a) Broad sets of applicability.
- b) Multiple vendors and numerous users.
- e) Balanced costs (LAN versus attached stations).

Rationale: Balanced costs doesn't apply to much of what we do today. However, the broad set of applicability and multiple vendors is still relevant.

1.2 Compatibility and Coexistence

IEEE 802 LMSC defines a family of standards. All standards should be in conformance with ---IEEE Std 802, IEEE 802.1D, and IEEE 802.1Q. If any variances in conformance emerge, they shall be thoroughly disclosed and reviewed with IEEE 802.1 Working Group prior to submitting a PAR to the Sponsor. In order to demonstrate compatibility with this criterion, the Five Criteriastatement must answer the following questions.

- a) <u>Will Does</u> the proposed standard <u>PAR mandate that the standard shall</u> comply with IEEE Std 802, IEEE Std 802.1D and IEEE Std 802.1Q?
- b) If the answer to a) is no, not, supply the response how will the Working Group ensurethat the resulting draft standard is compliant, or if not, receives appropriate review from the IEEE 802.1 Working Group.

Rationale: Modified by the group.

If the PAR proposes a wireless standard for unlicensed operation, the a WG proposing a wireless project is required to demonstrate coexistence through the preparation of a Coexistence Assurance (CA) document unless it is not applicable. Accordingly, the Five Criteria statement shall answer the following questions:

- a) Will the WG create a CA document as part of the WG balloting process?
- b) If not, explain why the CA document is not applicable.

Rationale: We want to retain 5C (not 6C) and it currently is in a strange position. Coexistence and compatibility seem similar enough to share a 5C, plus the questions are similar.

The Five Criteria statement shall describe the plan for developing a definition of managed objects as part of the project, or part of a different project, or explain why such a definition is not needed.

Rationale: We have required this, but it is not typically reviewed during PAR approval. Putting it in the 5C will assist us in ensuring that this requirement is met.

1.3 Distinct Identity

Each IEEE 802 LMSC standard shall have a distinct identity. To achieve this, each authorized project shall be: state why it is substantially different from other IEEE 802 LMSC standards.

- a) Substantially different from other IEEE 802 LMSC standards.
- b) One unique solution per problem (not two solutions to a problem).
- c) Easy for the document reader to select the relevant specification-

Rationale: b) applies more to the finished draft, rather than the PAR. Plus, I think that a lot of our standards violate the letter of this, there are often multiple options in a standard that solve basically the same problem. This seems to be an outgrowth of our desire to obtain consensus.

Rationale: c) doesn't make sense, this implies that it is the title that matters.

Finally, if we delete 2 out of the 3 list items, we should make it just single sentence.

1.4 Technical Feasibility

For a project to be authorized, it shall be able to show its technical feasibility. At a minimum, the proposed project shall show:

- a) Demonstrated system feasibility.
- b) Proven similar technology, reasonable testing, via testing, modeling, simulation, etc.
- e) Confidence in reliability.

Rationale: Typically we specify standards for emerging technology, which has not yet been proven when the PAR is proposed. Similar technology typically has been demonstrated. The term "reasonable testing" seems very difficult to quantify. Finally, with respect to reliability, I will simply quote Gilb's 4th law on unreliability (distant relation, we think), "Investment in reliability will increase until it exceeds the probable cost of errors, or until someone insists on getting some useful work done."

1.4.1.1 Coexistence of IEEE 802 LMSC wireless standards specifying devices for unlicensedoperation

- A WG proposing a wireless project is required to demonstrate coexistence through the preparation of a Coexistence Assurance (CA) document unless it is not applicable.
- The WG will create a CA document as part of the WG balloting process.
- If the WG elects not to create a CA document, it will explain to the Sponsor the reasonthe CA document is not applicable.

Rationale: This doesn't really belong here, so I suggest moving it to the Compatibility section.

1.5 Economic Feasibility

For a project to be authorized, it shall be able to show economic feasibility (so far as can reasonably be estimated) for its intended applications. At a minimum, the proposed project shall show:

- a) Known cost factors, reliable data.
- b) Reasonable cost for performance.
- c) Consideration of installation costs.

Rationale: For a), the cost factors would be "known" only for similar systems as the proposed system may not yet exist. As far as "reliable data", I will quote Gilb's 2nd law of unreliability, "Any system which depends on human reliability is unreliable."

For c), I don't think we have the expertise to analyze this for the cases where it would matter (e.g., for base stations). Most of our development now goes into closets or is mounted on the wall or ceiling. Installation costs tend to be constant, regardless of the technology that is selected. Hence, it does not really belong here.

5.	14	Π	802 JTC1 ad hoc update	Kraemer/Myles	5	08:58 AM

Myles gave verbal update. Went to meeting in Graz – to get agreement approved by 802 and JTC-SC6 – uses IEEE for responsibility of revision. 802 needs to put together a process for other bodies to participate in the revision process. Discussion regarding various replacement standards. Will be looked at in more detail.

5.15	п	802 Leadership Workshop Update	Marks	5	09:03 AM

Marks gave verbal update and demonstrated to group where the agenda is on the web (See https://docs.google.com/spreadsheet/ccc?key=0Arb3_3dB_pMCdHJQak1iQzQxODJxcEFiOW1xM2twuWc#gid=0). Verbal overview of agenda. Leads are asked to have slides to frame comments. D'Ámbrosia requested adding press releases onto agenda – and agreed to be lead.

5.	16 I	II	IEEE-SA Standard Board Draft Sharing Ad-Hoc	Diab	5	09:08 AM
						1

Diab gave verbal update. Ad hoc had initial call. Summary – no proposal yet. No fundamental objection to sharing but issues discussed. – what are the parameters, cost offset, maturity of draft, what point in timeline. Part of P&P or part of the education of the users? Next call is next week.

Another issue was noted with the 1860 Series.

The scope of the ad hoc is between individual and entity, and does not impact on-going work in 802 regarding sharing documents between individuals and working groups within 802.

Discussion regarding voting or commenting in these instances of sharing. Ad hoc open to proposals to address this. Currently, there are procedures in place that all comments will be considered.

There are copyright issues that will impact the sharing of the documents. Action Item : Diab provide further updates to EC at conference calls / plenary meetings.

5.17	п	Joint 802 / IETF Meeting Update	Thaler	5	09:13 AM
------	---	---------------------------------	--------	---	----------

Nicolich pointed out 1 hour time slot held for in-depth discussion this week.

Meeting on Sat between IETF and IEEE meetings in March, 2013.

Draft to update 444.1bis "IEEE / IETF relationship" is nearing completion. Will be released approximately today. Thaler will notify EC when it has been posted to IETF website.

Tuesday evening meeting being removed.

Rosdahl presented slides from EC-12-0063-00.

Proposed Future Venues for IEEE 802 Plenary Sessions Presented at Grand Hyatt San Antonio, November 2012

ADDITIONAL MEETING VENUE OPTIONS MARCH 2014, MARCH 2015 and MARCH 2016 · IRELAND **Dublin Convention Centre** -Ballsbridge Complex - Royal Dublin Society LONDON, ENGLAND HILTON METROPOLE (IETF IS BOOKED FOR THE DATES OF MARCH 2-7, 2014) SEOUL, KOREA More details to follow. - DAEGU, KOREA (located 150 miles from Seoul) DAEGU EXHIBITION CONVENTION CENTER AT THE PRESENT, FACE TO FACE EVENTS IS WAITING FOR ADDITIONAL MEETING SPECIFICATIONS AND PRICING FROM THE VENUES LISTED ABOVE Submission

Strawpolls - Any objections for this location for non- US based Plenary

- #1 Denmark 1 objection plus discussion
- #2 Gothenburg, Sweden no objections
- #3 Berlin, Germany no objections
- #4 Yokohama, Japan 6 objections
- #5 Beijing P.R. China no objections
- #6 Shanghai, P.R. China 6 objections
- #7 Dublin insufficient information
- #8 London, England insufficient information
- #9 Seoul Korea insufficient information
- #10 Daegu, Korea insufficient information

Model will be there will be a meeting fee. Some locations will not dictate a hotel choice, others may. This will be discussed at 12:300 to 1:30 on Wed for further discussion. Objections voiced to the nature of the strawpolls, due to the lack of information. General sense that there should be agreement on budget first- and that should dictate property elimination.

OpenStand – Aug 29

Some changes to messaging – partially to change some of the perception that it was a head-to-head effort with the ITU. Also – benefits of community nature and general nature open standards. Look in the "About" and FAQ sections.

Reaching out to civil societies, like World Health Organization, Red Cross.

Phase 2 - new phase being pursued to create community around OpenStand

Input from 802 to be discussed. Agreement at EC level of strategic nature to discuss at Workshop. Modified that standards bodies could be signatory's to the Principals.

Plenary meeting to be eliminated.

Steve Mills / Bob LaBelle / Glen Parsons will be supporting WCIT – and will be doing more indepth reviews for understanding potential impact on 802.

Recent Activities

JTC 1

- SC 6
 - Accompanied IEEE 802 delegation to September meeting in Graz, Austria
 - Report provided under the 802 JTC 1 Standing Committee
- SC 31
 - Address request from ISO/IEC JTC 1/SC 31 working groups regarding use of IEEE 802.15.4-2011 standards (amendments)
 - Still in progress but close to resolution

DKE (Germany)

- Document related to 802.3 under discussion

July 2013 802 Plenary

 ITU-T has indicated an interest in holding a joint workshop Saturday prior to 802 Plenary

Recent Activities (Cont'd)

ITU Patent Roundtable

- Held 10 October 2012
- http://www.itu.int/en/ITU-T/Workshops-and-Seminars/patent/Pages/default.aspx

802 Task Force

IEEE STANDARDS ASSOCIATION

Recent Activities

Renewal of ETSI MoU

-Proposed mapping has been shared with the 802 WG Chairs

-Next step – chairs to discuss with their working groups (mainly .3, .11, .15, .16, .22), so that we can then confirm the mapping (as is or with requested changes)

802 External Liaisons

- Compiling list in accordance with IEEE 802/IEEE-SA International Communications Plan
 - Awaiting responses from 802.11, 802.19, 802.21 and 802.22
 - Many groups reporting have a list of organizations they work with, list of individual liaisons not maintained

۰.

ITU Activities

IEEE/ITU-T Joint Workshop on Ethernet - Emerging Applications and Technologies

- Held 22 September in Geneva, Switzerland
- 99 attendees

Preparation for ITU Meetings in Dubai

- Global Standards Symposium (GSS-12)
- World Telecommunication Standardization Assembly (WTSA-12)
- World Conference on International Telecommunications (WCIT-12)

ITU-T and ITU-R Technical Liaisons

Historically IEEE-SA had one designated person serve as the Technical Liaison to ITU-T and ITU-R

- IEEE-SA staff serves as the Administrative Liaison

Multiple IEEE sponsors interested in the work of ITU

Staff recommends each sponsor appoint a liaison to the relevant area in ITU for which there is interest

 Current liaison appointed from <u>Power & Energy Society/Surge</u> <u>Protective Devices Committee</u>; to <u>ITU-T/SG5- Climate</u> <u>Change/WP1-Damage Prevention & Safety & WP2-Electromagnetic</u> <u>Fields: emission, immunity and human exposure</u>

ITU-T has indicated interest in holding a joint workshop. Conversation deferred to task force meeting

Law reported on a VDE 'pre-norm', which is not a standard, in relation to Gigabit Ethernet over PoF. DKE has submitted a liaison letter to IEEE 802.3 in relation to this document. This is will be discussed at the IEEE 802.3 opening plenary this afternoon.

ITU Patent Roundtable.- Law gave verbal report. He attended as an observer for the IEEE. The presentation from the workshop can be found at the URL - <u>http://www.itu.int/en/ITU-T/Workshops-and-Seminars/patent/Pages/agenda.aspx</u>.

5.29	DT	Disaster Recovery	Nikolich / DAmbrosia	5	10:11 AM

Walter / Gil / Karen will hold an Open Office Meeting to discuss plans on disaster recovery. Tuesday / Wed: 8:30 - 10:30, 12 - 1, 3 - 4 pm,

Nikolich to send out email to reflector with times

IEEE is reviewing fail-over plans

D'Ámbrosia reminded EC members to send secondary contact information (phone, email) to him.

Current OUI based identifiers

- Company_id is a 24-bit OUI value assigned by the IEEE-RA
- CDI-32[™] is a concatenation of a 24-bit OUI value assigned by the IEEE-RA and an 8-bit extension identifier assigned by the organization with that OUI assignment.
- TCDI-40[™] is a concatenation of a 24-bit OUI value assigned by the IEEE-RA and a16-bit extension identifier assigned by the organization with that OUI assignment.
- MAC-48 (obsolete label) / EUI-48[™] is a concatenation of a 24-bit OUI value assigned by the IEEE-RA and a 24-bit extension identifier assigned by the organization with that OUI assignment.
- EUI-60 (deprecated) is a concatenation of a 24-bit OUI assigned by the IEEE-RA and a 36-bit extension identifier assigned by the organization with that OUI assignment.
- EUI-64[™] is a concatenation of the 24-bit or 36-bit OUI value assigned by the IEEE-RA and a 40-bit or 28-bit extension identifier assigned by the organization with that OUI assignment.
- IPv6 is a concatenation of a 64-bit EUI-64[™] (derived from a MAC-48/EUI-48[™]) and a 64-bit extension identifier assigned by the device with the MAC-48/EUI-48 [™] assignment.

Current creation

Identifier	registry	OUI:ID
Company_id	OUI	1:1
• CDI-32	OUI	
• TCDI-40	OUI, OUI36	
 MAC48/EUI48 	OUI	1:16M
	IAB, OUI36	1:4K
• EUI60	OUI	
• EUI64	OUI, OUI36	1:1T
• IPv6	OUI, IAB, OUI36	

Some identifiers (e.g., Company_id) can only be created from one registry

IEEE

Rationale for change

- RAC "Prime directive"
 - Do not run out of global MAC48 addresses for 100 years
 - ~250 billion EUI48 (of ~70 trillion possible) addresses have been assigned
- Volume
 - A few vendors are volume users
 - >32M MAC (EUI-48) addresses assigned per month
 - Most other vendors would prefer a more options as they use less
 This would reduce "lost" or "unused" addresses
- Virtualization
 - Usage of global MAC (EUI-48) addresses by software
 - Traditionally RAC limited vendors to only a few per hardware device
 Reuse of global MAC (EUI-48) addresses per rack / cluster / data
 - center
 - Guidance needed, even though this is not permitted
 - Assignment of address blocks to data centers (instead of vendors)
- Future
 - Explore feasibility of "EUI-128" identifier for VMs

IEEE STANDARDS ASSOCIATION

Proposal

- Maintain existing OUI & OUI-36 registries
- Create new registries for EUI-48 sizes
 16M, 1M, 4K, 1
- Disconnect addresses from Company identifier
 - Assign 24 & 36 bit Company identifiers without addresses
 - Assign these within the "local space"
- Suggest VMs create addresses based on new Company identifiers in the "local space"
 - Resulting in reusable local addresses, with some organization
- Rework pricing structure accordingly...

New Proposed OUI-based Registries

- OUI existing
- OUI-36 existing
- CompanyID-24
- CompanyID-36
- Addresses-A (48 bit)
- Addresses-B (36 bit)
- Addresses-C (28 bit)
- Addresses-D (24 bit)

Registry EUI48 EUI64 Addresses-A 65536 1 Addresses-B 4096 268435456 OUI36 ~270 million Addresses-C 1048576 68719476736 ~1 million ~69 billion Addresses-D 16777216 1099511627776 OUI ~16 million ~1 trillion

IEEE STANDARDS ASSOCIATION

RAC Proposal – October 2012

- Key Identifiers .
 - 1. 24 bit Company ID
 - 36 bit Company ID
 - 48 bit EUI-48 address
 - 64 bit EUI-64 address
- Existing Registries
 - OUI: 1, 3, 4
 - OUI-36: 2, 3, 4
- New Registries:
 - Addresses Size A: 3, 4
 - Addresses Size B: 3, 4
 - Addresses Size C: 3, 4
 - Addresses Size D: 3, 4
 - Company ID 24 bit: 1
 - Company ID 36 bit: 2

- Alternative A
 - Addresses registries
 - Do not include company ID assignment, they are reserved for other use
 - Company ID registries
 - Do not include address assignments
 - Values taken from address registries
- Alternative B
 - Addresses registries
 - Do not include company ID assignment, they are reserved for IEEE RA (and left unassigned for now) now)
 - Company ID registries
 - Do not include address assignments
 - Values taken from local space
 - Virtualization
 - - Data centers are sold "CompanyIDs" and may use these to create addresses in the local space

IEEE STANDARDS ASSOCIATION

♦IEEE

Process

- RAC & RAP (sub-groups of the IEEE-SA) BOG) working together to develop reorganization of the OUI set of registries
 - Awaiting recommendation from consultant
 - Registry structure proposal will be socialized with customers and WGs seeking feedback on impact
- Evaluate feedback and finalize proposal - Discussion during Nov 8th RAC meeting
- BOG would like to approve reorganization and pricing in Dec 2012, or Mar 2013 at the latest
