

802.18 RR-TAG Closing Report

- Report on November 05 Interim Meeting
- Work accomplished at this Meeting

Planned Objectives for This Meeting

- Held joint session with 802.11 CBP SG
- Held joint session with 802.15 SG 3c
- Began drafting proposed revisions on ITU-R Recommendation M.1450 – will circulate to EC
- Reviewed 802.16 response to ITU-R liaison
- Began plans for 2006 ITU-R or PCC.II interim
- Completed revision of 802.18 P&P
- Attempted to respond to ECC consultation

ECC consultation on draft UWB Decision

- Was not on original agenda
 - Was brought to the RR-TAG's attention by U.K. Ofcom
- RR-TAG began to develop a response
 - Became clear that the RR-TAG's views were polarized
 - RR-TAG felt that the concerned parties were not represented
 - Directed the chair to bring this to the EC
 - Should 802 respond or not? If yes then how to proceed? Conf. calls – other?

802 EC decision:

- 802.18 chair to:
 - Continue to investigate if it is possible to complete the response
 - Report back to the EC on the results
