

# 802.1Qbb Status

Claudio DeSanti, November 2008

bb-cds-draft-0-2-status-1108

# Current draft

- Revision 0.2
- Proper clause numbering
  - Annex N defines the frame format and should go in 802.3
- Incorporated comments from the Seoul discussion
  - Especially on queues modeling
- Currently in ballot

# Next steps

- Finalize the queues model

This allows the definition of detailed state machines

- Create the PAR for the project to modify Annex 31 of 802.3

Where Pause is defined

According to the joint discussion held this week with 802.3

- Look at comments

Thank You
