Main ballot comment items

- Concern that 802.3 does not handle Slow Protocol frames as this standard requires
- Module Compliance statements in MIB need to make Protocol DA optional
- Lack of clarity over technical basis of MIB
- MIB object persistency and counter discontinuity
- Where to define the default value of the Protocol DA
- Re-rooting of MIB to 802.1 arc
Plan

› Do comment resolution for D1.2 at this meeting

› Generate 802.1AXbk/D1.3 following this meeting, incorporating
  › Changes agreed this week

› Submit this for WG recirculation ballot.

› Comment resolution at the November plenary

› Sponsor ballot following November
Thank You
