### P802.1Q

**Submitter Email:** tony@jeffree.co.uk  
**Type of Project:** Revision to IEEE Standard 802.1Q-2011  
**PAR Request Date:** 11-Jul-2012  
**PAR Approval Date:**  
**PAR Expiration Date:**  
**Status:** Unapproved PAR, PAR for a Revision to an existing IEEE Standard

#### 1.1 Project Number: P802.1Q  
#### 1.2 Type of Document: Standard  
#### 1.3 Life Cycle: Full Use

<table>
<thead>
<tr>
<th>2.1 Title: Standard for Local and metropolitan area networks--Media Access Control (MAC) Bridges and Virtual Bridged Local Area Networks</th>
<th>Changes in title: IEEE Standard for Local and metropolitan area networks--Media Access Control (MAC) Bridges and Virtual Bridged Local Area Networks</th>
</tr>
</thead>
</table>

#### 3.1 Working Group: Higher Layer LAN Protocols Working Group (C/LM/WG802.1)  
**Contact Information for Working Group Chair**  
**Name:** Anthony Jeffree  
**Email Address:** tony@jeffree.co.uk  
**Phone:** +44-161-973-4278  
**Contact Information for Working Group Vice-Chair**  
**Name:** Glenn Parsons  
**Email Address:** gparsons@ieee.org  
**Phone:** 613-763-7582

#### 3.2 Sponsoring Society and Committee: IEEE Computer Society/LAN/MAN Standards Committee (C/LM)  
**Contact Information for Sponsor Chair**  
**Name:** Paul Nikolich  
**Email Address:** p.nikolich@ieee.org  
**Phone:** 857.205.0050  
**Contact Information for Standards Representative**  
None

#### 4.1 Type of Ballot: Individual  
#### 4.2 Expected Date of submission of draft to the IEEE-SA for Initial Sponsor Ballot: 05/2014  
#### 4.3 Projected Completion Date for Submittal to RevCom: 10/2014

#### 5.1 Approximate number of people expected to be actively involved in the development of this project: 50

#### 5.2 Scope: This standard specifies Media Access Control (MAC) Bridges that interconnect individual Local Area Networks (LANs), each supporting the IEEE 802 MAC service using a different or identical media access control method, to provide Bridged Local Area Networks and Virtual LANs (VLANs).

#### 5.3 Is the completion of this standard dependent upon the completion of another standard: No

#### 5.4 Purpose: MAC Bridges, as specified by this standard, allow the compatible interconnection of information technology equipment attached to separate individual LANs.

#### 5.5 Need for the Project: This revision project is needed in order to incorporate approved amendments and to ensure that consistency is maintained in the consolidated text. It is also necessary to complete the process of merging the MAC bridging technology defined in IEEE Std 802.1D with the VLAN Bridging technology defined in IEEE Std 802.1Q in order to create a single standard for IEEE 802 Bridging technologies that was started in the 2011 revision. This will have benefits both for the users of these standards and also in terms of the long-term maintainability of the resultant standard.

#### 5.6 Stakeholders for the Standard: Manufacturers, distributors, vendors, and users of Virtual LAN bridging equipment and components thereof.

---

**Intellectual Property**

6.1.a. Is the Sponsor aware of any copyright permissions needed for this project?: No  
6.1.b. Is the Sponsor aware of possible registration activity related to this project?: Yes  
**If yes please explain:** This standard makes use of standard group MAC addresses and OID arcs assigned/administered under existing registration procedures/mechanisms administered by the RA. There will be no new registration activities required as a result of this revision to the standard.
7.1 Are there other standards or projects with a similar scope?: No
7.2 Joint Development
   Is it the intent to develop this document jointly with another organization?: No

8.1 Additional Explanatory Notes (Item Number and Explanation):
