Main ballot comment items

- Need to change conformance language: conformance is required.

- Dated vs undated references to standards; specific clause refs.

- Less reliance on old ISO standards, more on 802 standards.

- Ethernet link_down (#55)

- 802.11 interface beginning to come together – should we split out 802.11ak stuff to an annex for later removal to speed 802.1AC?

- 802.11 interface doesn't support specifying FCS

- Ethernet P2P pseudo wire on a shared medium?
