IEEE P1904.3 TF Radio over Ethernet update

Jouni Korhonen

IEEE 802.1TSN @Waikoloa 2015

Disclaimer

- This is not an official IEEE 1904 WG output; just an informal update what is happening regarding Radio over Ethernet in IEEE P1904.3.

Update since Pittsburg

- Third f2f held in Beijing, June, 2015:
  - Participation growing – over 30 attendees last time.
  - Collecting baseline proposals phase still ongoing.
  - IEEE P1904.3 TF also presented in CMRI NGFI workshop.
- Reoccurring telcos still every two weeks:
  - Discussions on overall security – general interest.
  - Clarifications on multiple topics e.g. control packets format and use of flow_id.
  - Mappers being worked on.
  - …
- First draft spec estimated to be out by October.
- Next WG & TF meeting end of August:
  - Will be a virtual meeting.
