For: Information
Date: July 2017

Colleagues,

Thank you for your liaison "EtherType for long LLC frames Submission Date: 2017-06-19 URL of the IETF Web page: <https://datatracker.ietf.org/liason/1529/>".

We are grateful for your successful efforts to recover the 88-70 EtherType. At our July IEEE 802.1 meeting, we initiated a corrigendum PAR to correct the LLC Encapsulation EtherType assigned in IEEE Std 802.1AC-2016.

We will update you on the progress of this project as it progresses.

Best regards,
Glenn Parsons, Chair IEEE 802.1 Working Group
