Dear Mr. Rostan and colleagues,

We thank the EtherCAT Technology Group and Dr. Karl Weber for the presentation of your recent liaison. We have reviewed your request for information and are providing the latest revision of the following draft specifications:

- IEEE P802.1AS-Rev
- IEEE P802.1Qcc
- IEEE P802.1Qcp
- IEEE P802.1Qcr
- IEEE P802.1CS
- IEEE P802.1AX-Rev
- IEEE P802.1AR-Rev
- IEEE P802.1Q-Rev

We would request draft EtherCAT Technology Group specifications, e.g., ones referring to IEEE 802.1 specifications or draft specifications.

Please note that the IEEE 802.1 WG is open to anyone and is based on individual participation. As a result, it is problematic to identify official liaison representatives from other organizations. We hope that we can continue to cooperate, both by liaison messages and by common participation in the two organizations.

Respectfully submitted,

Glenn Parsons
