ADVA™
Optical Networking

D1.4 WG recirculation ballot results

- 59 Voters – of which 43 have responded (73%)
  - 38 Approve   100%
  - 0 Disapprove   0%
  - 5 Abstain

- Ballot
  - got enough responses (73% > 50%)
  - passed (100% > 75%)

D1.4 Commenting statistics

- 5 Comments
  - 0 TR
  - 1 T
  - 0 ER
  - 4 E
  - 0 G/GR

ADVA™
Optical Networking

Comment topics

- Forwarding of EDE-SS PEP address and Provider Bridge MVRP address misdescribed in bullet h of 8.6.3.

- Format of Ethertype values inconsistent.

ADVA™
Optical Networking

Remaining work on Q-Rev

- Maintenance items – there are none approved currently. If these are approved they could be incorporated into Sponsor ballot via comments
  - 0183: Document CFM code points allocated to IETF
  - 0186: Buffer occupancy managed objects
  - 0187: Port counter for FCS errors

- Some comments have been received from a non-voter
  - Plan for chair to submit these on his behalf as Sponsor ballot comments

- Incorporation of approved amendments
  - 802.1Qci is apparently published but sources not available yet
  - 802.1Qch is apparently published but sources not available yet

Plan

- D1.4 Comment resolution on June 27th Maintenance call.

- We have conditional approval to go to Sponsor ballot
  - This runs out at next plenary

- Prepare D2.0 for sponsor ballot prior to July plenary
  - Editorially incorporate 802.1Qci and 802.1Qch prior to Sponsor Ballot if material is available in time
  - No further technical changes to draft prior to Sponsor ballot

- Run Sponsor ballot before (or possibly after) July plenary

- Incorporate any more maintenance items via Sponsor ballot comments.

- Further follow the plan in http://www.ieee802.org/1/files/public/docs2017/q-messenger-revision-plan-0117-v1.pdf
