ITU-T SG 15 Question 14 (Q14/15) thanks IEEE 802.1 and IEEE 802.3 for the collaboration related to Ethernet OAM YANG. Q14/15 is progressing the work in a project called: Recommendation ITU-T G.8052.1/Y.1346.1 *Transport OAM Management Information/Data Models for Ethernet Transport Network Element*. The work in this draft is based on the results of discussions with IEEE 802.1 experts to ensure the YANG that is generated from the pruned and refactored ITU-T Information Model in G.8052 is compatible with the IEEE 802.1Qcp and IEEE 802.1Qcx YANG being developed. Q14/15 invites all experts to engage in collaboration on monthly eMeetings.
