# Classification of Comments, and Order of Coverage

---

- ❑ The Proposed Response field of each comment indicates whether or not the comment addresses text that has changed since the previous draft (D8.0). This is strictly for convenience, and will be removed for the final comment resolution.
- ❑ The following comments, and only these comments, have 'Must be Satisfied' set to 'Yes' and therefore are associated with Disapprove Votes. These comments must be discussed (11 comments):
  - 2, 42, 43, 44, 46, 47, 48, 49, 50, 52, 53
- ❑ The following comments address text that has not changed (though in one case the relevant text was incorrectly indicated as having changed); however, in the opinion of the editor these comments pertain to significant technical items and do need to be addressed at some point (5 comments):
  - 3, 4, 5, 6, 41
- ❑ The following comments address text that has changed, and in the opinion of the editor are very straightforward (most are editorial, and the few that are not editorial are, in the opinion of the editor, trivial). These comments can be covered quickly (14 comments):
  - 1, 7, 8, 9, 10, 11, 13, 25, 26, 28, 30, 32, 33, 38
