Date: November 14, 2019

Dear Dr. Rohrmus and colleagues,

We thank LNI4.0 for the interest in our work and for testing IEEE 802.1 Time-Sensitive Networking technology. We have reviewed your request for information and are providing the latest revision of the following draft specifications for testing purposes:

- IEEE P802.1CS
- IEEE P802.1ABcu
- IEEE P802.1CBdb
- IEEE P802.1Qdd
- IEEE P802.1Qcr
- IEEE P802.1AS-Rev
- IEEE P802.1Qcw

The P802.1CBcv and P802.1CQ projects are at an early stage and drafts are not yet ready for sharing.

We request that these drafts be stored for LNI4.0 use with password-protected access. We also request that you provide access to the test reports, documents, and draft documents of LNI4.0 referring to IEEE 802.1 specifications or draft specifications.

We hope that we can continue to cooperate, both by liaison messages and by common participation in the two organizations.

IEEE 802.1 meets again January 20-24, 2020 in Geneva, Switzerland, and March 16-20, 2020 in Atlanta, GA, USA. IEEE 802.1 face-to-face meeting details are available at: <http://www.ieee802.org/1/meetings>.

Best regards,
Glenn Parsons
Chair, IEEE 802.1 WG
