<b>From</b>	MEF Forum

Dear Liaison Partner,

This is a follow-up liaison to our liaison LS00297\_001 sent in June 2019.

MEF Forum, with the input of Service Providers, has completed an amendment to MEF 22.3, and, after its April 2020 Quarterly meeting, has posted the approved amendment to MEF 22.3, Transport Services for Mobile Networks. This amendment to the base MEF 22.3 Implementation Agreement - Transport Services for Mobile Networks (previously Mobile Backhaul), is now published and available at: <http://www.mef.net/resources/technical-specifications>.

We thank you as a liaison partner for your valued input during the development of the TSMN Standard.

Upcoming MEF meetings in 2020 are:

- July 27-30, virtual meeting.
- October 26-30 in Orlando, FL, USA.
