Date: November 10, 2020

Dear Colleagues,

As a follow up to our previous exchanges on Connectivity Fault Management and Ethernet OAM, the IEEE 802.1 Working Group would like to inform you of the October 5, 2020 publication of IEEE Std 802.1Qcx™-2020 *YANG Data Model for Connectivity Fault Management*.

The new standard is readily available for purchase or via subscription at https://standards.ieee.org/standard/802_1Qcx-2020.html and will become freely available through the IEEE GET Program™ six months after publication at <https://ieeexplore.ieee.org/browse/standards/get-program/page/series?id=68>.

We look forward to continued collaboration between our organizations.

Respectfully submitted,
Glenn Parsons
Chair, IEEE 802.1 Working Group
