Editor’s Report for
Draft D1.0 Ballot Comment Resolution (v1)

Stephan Kehrer, Hirschmann Automation and Control GmbH

January 2021
D1.0 was the initial draft for Working Group ballot. The changes in draft D1.0 are based on the final disposition of comments against draft D0.4 that can be found under 802-1CBcv-d0-4-dis-v01.pdf.

This document provides an overview over the ballot statistics and sorts comments into discussion topics for ease of comment resolution. The Editor has made a best effort to organize the comments by comment type (E, ER, T, TR, etc.). In case of errors, the comment resolution database is the definitive source.

In those places where comments are grouped together (i.e. enclosed in []), they have been put into the category that is the best fit for that group.

For comments marked red the editor would prefer a discussion at the interim meeting. For comments marked black the editor assumes that they can easily be resolved on a call.
