

IEEE P802.1CBcv
Editor's Report for
Draft D1.1 Ballot Comment Resolution (v1)

Stephan Kehrer, Hirschmann Automation and Control GmbH

March 2021

P802.1CBcv/D1.1 Summary

D1.1 was the draft for first Working Group recirculation ballot. The changes in draft D1.1 are based on the final disposition of comments against draft D1.0 that can be found under [802-1CBcv-d1-0-dis-v01.pdf](#).

This document provides an overview over the ballot statistics and sorts comments into discussion topics for ease of comment resolution. The Editor has made a best effort to organize the comments by comment type (E, ER, T, TR, etc.). In case of errors, the comment resolution database is the definitive source.

In those places where comments are grouped together (i.e. enclosed in []), they have been put into the category that is the best fit for that group.
