Purpose of a Boundary Diagram

- As with any project that is being worked on by a number of people, there will be many opinions on scope of the work
- The creation and agreement of a Boundary Diagram will help to align all these opinions, eliminating the need to discuss what is in and what is out during the normal course of the work.
- With this in mind my team, along with Mike Potts, has created the following boundary diagram to help the team reach consensus on the scope of 802.1DG.

802.1DG Proposed Boundary Diagram

P802.1DG (Automotive In-Vehicle) Boundary Diagram
