Subject: Liaison for draft sharing between IEEE 802.1 WG and EtherCAT

Dear Glenn,

We plan to update our EtherCAT TSN draft profile and would like to adjust it to the recent drafts of IEC/IEEE P60802 and IEEE P802.1Qdd.

Thus, we would like to ask the IEEE 802.1 WG to share the following drafts within the liaison for information sharing.

- IEC/IEEE P60802 D1.3
- IEEE P802.1Qdd D0.5

Only members of the TWG EtherCAT and TSN will have access to the documents for personal use.

With best Regards and many thanks in advance,

Karl Weber

Chair of TWG EtherCAT and TSN
