Keywords: 14/11; liaison statement; IEEE Std 802.1D-2004

Abstract: This liaison statement seeks clarification about the withdrawal of IEEE Std 802.1D-2004.

This liaison answers [IEEE802.1-20201222](#).

ITU-T Study Group 11 thanks IEEE 802.1 for the liaison statement ([IEEE802.1-20201222](#)) highlighting your intention to withdraw IEEE Std 802.1D-2004. ITU-T SG11 has no objection.

However, we would appreciate if you could clarify whether the withdrawn standard remains available. If so, SG11 will not make any change for the current version of ITU-T Q.4043 which takes IEEE Std 802.1D-2004 as a reference. It might be revised at a later stage, once more inputs are received.

ITU-T Study Group 11 looks forward to receiving the reply from IEEE 802.1.
