Dear Colleagues,

This liaison statement provides a response to SG15-LS351 including an update to the IEEE 802.1 projects included in Issue 30 of the OTNT SWP. The updates are provided using tracked changes of Microsoft Word in the attachment.

Additionally, in Section 6, there is a comment that requests to clarify if the table should include ongoing projects or only completed standards, amendments and corrigenda. Currently we are only listing published documents. Description of ongoing projects is provided above.

Thank you for your consideration on this topic. We look forward to continued collaboration between our organizations.

Respectfully submitted,
Glenn Parsons
Chair, IEEE 802.1 Working Group
