E-mail: jessy.rouyer@nokia.com

Abstract: This liaison statement announces the initiation of the approval process for Amendment 1 to Recommendation ITU-T G.8021 (2022) and for Corrigendum 1 to Recommendation ITU-T G.8013/Y.1731 (2023), and shares differences between the latter and the last draft of the base Recommendation shared with all receiving organizations.

We are pleased to inform you that at our 20 November-1 December 2023 plenary meeting, ITU-T SG15 has initiated the final approval process for the following:

- Draft Amendment 1 to Recommendation ITU-T G.8021 (2022); and
- Draft Corrigendum 1 to Recommendation ITU-T G.8013/Y.1731 (2023).

These two drafts are attached for your information.

ITU-T SG15 had last communicated with all of you on Recommendation ITU-T G.8013/Y.1731 via our liaison dated 9 February 2018 that included Corrigendum 1 to the 2015 edition. Since then, a roll up revision was published in 2023, on which draft Corrigendum 1 is based. All editions, including amendments and corrigenda, are at

<https://www.itu.int/ITU-T/recommendations/rec.aspx?rec=15553>.

For your information and convenience, the modifications introduced between these two corrigenda are shown, using auto-generated revision marks, in the attached PDF document.

ITU-T SG15 would like to express its appreciation for the continued useful exchange of information on Ethernet standards and looks forward to further interaction between our organizations.

ITU-T Q10/15 will next meet in July 2024.
