Abstract: This liaison indicates Q14/15's preference for YANG supporting inclusive terminology.

ITU-T Q14/15 is very appreciative of the support provided by IEEE 1588 for inclusive terminology. Q14/15 is closely following the draft yang work in P1588e, and would like to inform IEEE 1588 of the intention for our modules to augment the ieee1588-ptp YANG module that supports inclusive terminology (currently known as ieee1588-ptp-tt).
