- These comments are on the PAR found in:
  - <https://mentor.ieee.org/802.15/dcn/25/15-25-0054-01-0mag-par-for-802-15-4-2024-corrigendum-1.pdf>

# PAR

- Comment towards P802.15.4-2024 Corrigendum 1 PAR, Section 5.5
  - Suggest deleting: "accumulated maintenance changes and corrigenda". It's not the practice of IEEE 802 to incorporate corrigenda within a corrigendum. Accumulated maintenance changes could also refer to technical changes that are not addressing errors. The parentheses should be removed.
  - The suggested remaining text would read: "The project is needed to incorporate editorial and technical corrections into the standard". After that, suggest summarizing the corrections shown in <https://mentor.ieee.org/802.15/dcn/24/15-24-0635-01-0mag-responses-to-comments-from-ieee-editors.docx>
