

Access to IEEE 802.1 Drafts

Berlin, March 5th 2025

Mr. Glenn Parsons

Chair of the IEEE 802.1 Working Group

(sent via email glenn.parsons@ericsson.com)

Dear Mr. Parsons,

I am happy to inform you that the LNI 4.0 TSN testbed will hold its 102nd General Assembly on March 17th 2025 discussing the preparations for the Hannover Fair 2025 as well as the 802.1DD developments.

Therefore, LNI 4.0 would like to continue to use the IEEE 802.1 standards and drafts in the testbed to validate them according to the SME use cases that LNI 4.0 is focusing on like industrial machine to machine communication.

Therefore, LNI 4.0 kindly asks the IEEE 802.1 Working Group to grant the LNI 4.0 testbed members access to the following draft documents in order to expedite trial implementations:

- IEEE 802.1DD
- IEC/IEEE 60802

LNI 4.0 is aware that these documents may undergo changes at any time before being published.

LNI 4.0 is looking forward to continuing to closely work together with the IEEE 802.1 Working Group on applying TSN technologies in the LNI 4.0 TSN testbed.

Kind Regards,

Thomas Hahn

Chairman of Lab Networks Industry 4.0 e.V.

Reinhardtstraße 58

10117 Berlin, Germany
