

IEEE 802.1 Maintenance

Meeting

May 24th, 2016

8:00am-10:00am – Minutes v2 (John Messenger)

Attendees: Messenger, John;

The chair, John Messenger, introduced the agenda, showed the patent policy slides and made the call for patents. There were no responses.

1. John presented and updated the list of current vehicles (drafts) used for implementing maintenance items, and the current numerical status of maintenance items in the database. Details in the Maintenance Session Slides.
2. John reviewed the status of 802.1Q with regard to revision requirements (<http://iee802.org/1/files/public/docs2016/q-messenger-revision-plan-0316-v1.pdf>) and recommended that we start an 802.1Q revision in July 2016.
3. We reviewed and updated the open items in the Maintenance Database except those that are already in balloting state. The updates are documented in the database: <http://www.ieee802.org/1/files/public/maint/new-requests/home.html>.
4. We reviewed and updated status of the new maintenance items:
 - a. 0168: 802.1Q Port creation on components
 - Issue and proposed solution agreed – Complete then Ballot
 - b. 0169: 802.1Q: D-component creation
 - Also need to check usage of “VLAN unaware component” – Technical Experts Review (Tony)
 - c. 0170: References to other standards in 802.1BA-2011
 - Issue agreed. Awaiting a vehicle – Ready for Ballot
5. John performed comment resolution on 802.1AC-Rev/D3.1 following sponsor recirculation ballot.
6. John reported that there was only one comment received on the ballot of P802.1BA-2011/Cor-1, and the commentor (John) withdrew the comment, so no comment resolution was necessary. The commentor submitted a maintenance item instead, to cover all the cases.
7. There were no proposed comment responses to comments received from SC6 to review.
8. Received liaisons were dealt with as follows:
 - a. Liaison from Wifi Alliance requesting that 802.1 work on 64-to-48-bit bridging: <http://www.ieee802.org/1/files/public/docs2016/liaison-WFA-Wi-Fi-HaLow-0516.pdf>. Glenn will arrange a discussion of the topic at the July 2016 plenary meeting.
9. We reviewed the status of 802.1 drafts and standards progressed under the PSDO to ISO SC6 JTC1, and agreed that the following standards should be submitted under PSDO:
 - a. none

10. See the session slides (<http://www.ieee802.org/1/files/public/docs2016/maint-messenger-session-0516-v3.pdf>) and web-site (<http://www.ieee802.org/1/maint.html>) for complete details and discussion.
